

Item #02245

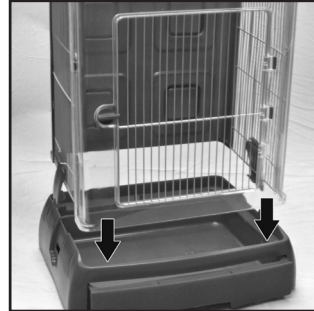

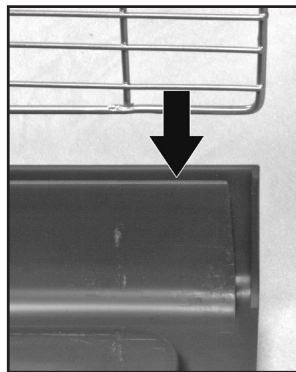

Size 13.5"w x 11.25"d x 21.75"h

Step 1

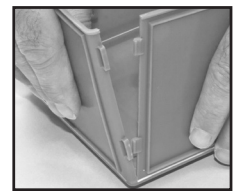

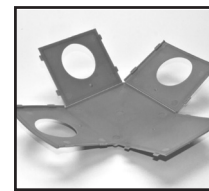

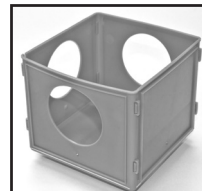

Press the two side wire panels into the back plastic wall until they snap in place. (Do not try to slide into groove.)

TIP: Check that the wire and the back wall are right side up. The Cage-N-Tunnel Locking Caps are attached to the top sections and the back wall is marked "TOP". The back wall of the AvaTower has a small lip on each side that the edge of the wire panels rests on.

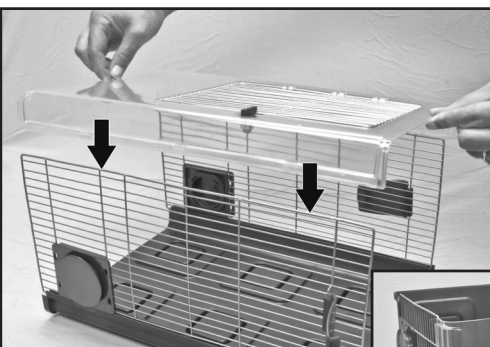

Step 3

Lower the assembled cage sides onto the base so that they rest on the inside lip of the cage base. Lock the blue cage clips onto the side of the wire then snap clips to the base to lock in place.

Step 4

Assemble the cubicles by folding the walls up and snapping the sides of each cubicle together.

Step 2

Gently press the clear front onto the two side wire panels until they snap in place.

Step 5

Attach the cubicles and the wheel into the AvaTower as shown by pressing them in place onto the square attachment locations on the back wall.

TIP: Always make certain your pet has access to all levels by checking the arrangement of all openings in the cubicles. The maze configuration is easy for your pet to learn and navigate.

Step 6

Insert the yellow elevators on the lower and center right levels as shown.

Step 7

Press food dish onto the raised attachment location on one of the shelves. Line the two translucent shelves up with the center and top levels and gently lock in place by pressing the hooks on the shelves onto the wire until they securely connect.

Step 8

Attach the locking water bottle by inserting the yellow water bottle bracket midway on the right side [see image for location] and insert the blue water bottle securely into the bracket.

TIP: Make certain the water bottle is easily accessible by your pet.

Step 10

Place rooftop on the AvaTower by gently pressing down on the assembled home until the roof snaps into place. Notice the plastic tabs on the inner sides of the rooftop to guide and lock the rooftop in place securely.

Assembly of your Critter Universe AvaTower is now complete.

Parts List:

1 Back Plastic Wall	Dark Blue	#900520	1 C.U. Exercise Wheel	Translucent Yellow	#900529
1 Left Side Wire Panel	Silver	#900521	2 C.U. Elevators	Yellow	#900510
