ware cares[™]

We care about the carbon pawprint we leave as a company and are committed to using recycled and recyclable material in the manufacturing of our packaging and pet products.

why Timothy Hay?

Rabbits, chinchillas, and guinea pigs are considered fibrevores because they require a constant source of fiber to keep their digestive systems working properly. Vegetarians suggest that hay make up 80% of your fibrevore's daily diet. Not only will this keep their tummies happy, it will also help maintain their dental health.

Important: This pet chew is not intended for children.
Small size could present a choking hazard. Supervision required.

item #13024

l'amusement pour petits animaux
la diversión para animales pequeños
